

FINAL Refresh

Room Deodoriser

Step 3 of the Neutrasol Methamphetamine Decontamination System

FINAL Refresh

is a two-stage action room deodoriser that contains a powerful odour neutraliser that attacks odour molecules immediately at the source, leaving a fresh, light fragrance. Effectively controls a wide range of malodours including decaying garbage, smoke, cooking odours as well as animal and body odours.

Directions

Spray directly into the air for FINAL Refresh to instantly react with noxious odours leaving the atmosphere free of odour and with a fresh, lingering fragrance. Room deodorising is best achieved using a sweeping action while spraying up into the ceiling corners.

Properties

Appearance:	Clear Colourless Liquid
